**This forklift ramp had seen years of weathering, cracks and damage from forklifts. It had become a trip hazard for employees and forklift operators.**

**Before**

**After**

After removing the old spalled concrete, the RPG Surface Prep Team installed a high strength, fast setting polymer concrete to rebuild the ramp. They highlighted all the critical areas with OSHA Safety Yellow epoxy for added visual safety benefits. Find out how the RPG Surface Prep can restore the integrity and safety of concrete slabs, curbs, expansion joints and cracks in your concrete walkways and containment areas.
